

## Forum Invite:

### Critical Incident & NDIS Provider Forum

The Office of Disability invites you to attend a forum in Darwin on **17 November 2017, commencing at 9am – 12:30pm** to include two sessions:

- Introduction to the *Critical Incident Reporting Guidelines*
- NDIS Provider Forum facilitated by PwC Indigenous Consulting (Implementation Partners)

### Critical Incident Reporting Guidelines

The Critical Incident Reporting Guidelines (the Guidelines) will come into effect on 1 January 2018, and will apply to **both** NDIS registered providers, and providers who continue to support Office of Disability funded clients until they transition to the NDIS. The Guidelines and associated processes are intended to support your organisation and the sector more broadly to transition to the national quality and safeguarding requirements for full Scheme in July 2019.

The Guidelines are a companion document to the Quality and Safeguarding Framework, which is applicable to all NDIS providers during transition. The Guidelines outline the requirements of NDIS registered providers for the management of critical incidents, including recording and reporting, which may require some changes in the way your organisation manages and reports on critical incidents.

The forum will be an opportunity to understand what these important changes will mean for your organisation and for the people with disability you support. The Office of Disability will work with your organisation and the sector to implement these important changes.

### NDIS Provider Forum

The NDIS Provider Forum will provide an opportunity for you to identify and respond to sector wide professional development opportunities, including building on the success of communities of practice operating in the Territory. This forum will also provide you the opportunity to reflect on key learnings from the Northern Territory experience so far.
